

## 2007-2008 AUS Tables

The Department identifies low-performing schools based on their SPS, which is derived from test data (LEAP, *i*LEAP, GEE), attendance and dropout data, and graduation data if applicable. A school designated AUS must usually offer students the choice to attend another school within their district. In addition, each consecutive year that a school is labeled AUS, it moves to a higher level, ranging from AUS 1 – AUS 6+. Schools proceeding to higher AUS levels face additional and more stringent consequences, including State takeover.

**2007- 2008 Subgroup Results**

The No Child Left Behind Act of 2001 requires states to report the results of schools that failed Subgroup Adequate Yearly Performance the previous year or were in School Improvement the previous year due to Subgroup Component Failure. The following table fulfills those requirements. “Pass” means the school has avoided School Improvement requirements. “Exit SI” denotes a school that has improved sufficiently to no longer be monitored in implementing School Improvement requirements. “SI 1” and “SI 2” indicate a school has failed the same subject 2 consecutive years (SI 1) or 3 of the last 4 years (SI 2).
